## Castlevania: Dracula X Rondo of Blood Story PROLOGUE

In the halcyon days of yore, overripe with peace and prosperity, not a soul believed that tomorrow could bring anything but more of the tranquil plenty about them...

But peace and prosperity always give rise to the wicked; those who would deny mankind comfort, and grow bored of peace. A dark congregation of such villains began to gather, plotting to revive an unholy power to destroy the decadent world and begin anew.

Their ambitions for the new world to be born grew steadily, mirrored in the leering grins etched upon their faces.

A century later, that vile creature was reborn unto the world.

Taking the form of bat, wolf, or mist at will, he stalked the land by night, draining young maidens of their blood to feed his own immortality.

Thus the malefic Count Dracula, lord of Castlevania, came to live again.

### Richter Belmont

A vampire hunter at 19, Richter is a direct descendant of Simon Belmont. Armed with an unwavering sense of justice and the ancestral Belmont whip, Richter can also wield axes and daggers.

### Maria Renard

A girl with distant blood ties to the Belmont clan. After being freed from imprisonment in Stage 2, she joins Richter as a playable ally. Perhaps due to her youth, 12-year-old Maria is candid and unaffected, and hates to lose.

### Count Dracula

Lord and master of Castlevania, and the root of all evil. Though unparalleled in his cruelty, he maintains a regal air of elegance and grandeur.

## Castlevania: Dracula X Symphony of the Night Story PROLOGUE

After enduring countless struggles, Richter Belmont ultimately triumphed over the revived Count Dracula, brought back into this world by the dark priest Shaft.

4 years later, Richter mysteriously disappeared one full-mooned night, marking the start of Maria Renard's wandering in his pursuit.

Along her way, the sudden appearance of the vile Castlevania – said only to be resurrected once a century – made her destination clear.

Elsewhere, another strange happening beset a solitary man.

A man called Alucard.

After striking down his own father, Count Dracula, with the aid of Trevor Belmont, Alucard had sought to end his accursed bloodline by sealing his powers away and entering into an eternal sleep.

His slumber interrupted, Alucard learns of his vile home's reemergence.

And so it was that a disparate group of fated souls were once more drawn to the Castlevania's foul gates, each with their own goals,

as the ever-vigilant moon silently observed from its heavenly perch...

### Alucard

Born of the union between Count Dracula and a human. His androgyne beauty and delicate build belie tremendous physical prowess and a mastery of the dark arts. Though a melancholy and taciturn youth, he is intelligent and level-headed.

### Lisa

Alucard's mother, and the only woman that Count Dracula ever loved.

Her attempts to save her village from a plague with hand-made medicines saw her tried and killed as a witch.

### Count Dracula

Alucard's father, lord of the cursed Castlevania, said to reappear once every 100 years, though count and castle alike were destroyed by Richter Belmont 5 years ago. Dracula stands supreme over the world's evil with his unparalleled black sorcery.
