CONTROLLER NEUTRAL POSITION RESET

If the L or R Buttons are pressed or the Control Stick or C Stick are moved out of neutral position when the power is turned on, those positions will be set as the neutral position, causing incorrect game control during game play.

To reset the controller, release all buttons and sticks to allow them to return to the correct neutral position, then hold down the X, Y and START/PAUSE Buttons simultaneously for 3 seconds.

Please refer to the NINTENDO GAMECUBE instruction booklet for directions on how to format and erase Memory Card files.

This game is designed to work with the Game Boy Advance handheld video game system. To connect the Game Boy Advance to the NINTENDO GAMECUBE, you will need a NINTENDO GAMECUBE Game Boy Advance Cable (sold separately). See the instructions that come with the cable for additional connection information.

NEW BEGINNINGS

Hold it greenhorn! Take a moment to review the basics about starting a farm before you trot off with that hoe and hurt someone. It might save you time and even prevent a mess or two!

Name Your Character

As Takakura gives you a guided tour of your farm and the immediate surroundings he'll ask you to name your dog and cow. Then he'll ask you what you want people to call you. It's a long life. Choose names that appeal to you.

Dear Diary...

Sleep, save your game and check your farm status by looking at the green diary next to your bed. It's a good idea to save your game every night, especially if you offend a bride-to-be and later want to take back what you said.

Check Your Game Status

The Status Book is frequently overlooked by new farmers but old hands rely on it to see the big picture of their farming venture. This trusted tome lists a summary of your pets, feed, money, animals, fertilizer and buildings.

TIP

If you have a new game card you'll have enough memory space to save the progress of two Harvest Moon: A Wonderful Life games, making it easy to share with a friend... or at least keep your sister or brother from ruining your hard work!

LIFE BY CHAPTER

A Game, a Lifetime...

Your father always wanted to be a farmer. Years ago he bought a farm with his best friend Takakura but never lived long enough to fulfill his dreams. Did the same calling draw you to Forget-Me-Not Valley? Or did you want to escape your dreary urban life? Maybe the real reason is that you wanted to know your father. Takakura can teach you about farming, but it's up to you to find your own path.

FARMING FOR PROFIT

Not an Easy Living

Farming certainly isn't about sitting back and watching the grass grow. You're constantly planting, feeding, watering or buying equipment. If you find a spare moment, check out the local dating scene. Takakura can give you advice on all things not related to love.

THE DATING GAME

Soul Mate Quest

There are three potential brides-to-be in town and all have distinct personalities: One is shy and traditional, another is looking for a man and the third one is intelligent and anything but predictable. Choosing the best wife depends on your personality, so pick the one you like the most--before someone makes the choice for you!

RAISING KIDS

Pass the Diapers and Max the Challenge!

After the first year you'll end up with a bride and a baby son. Will he inherit the farm? Will he grow into an unruly teenager? Will your nearby neighbors influence his career path? It depends on how you apply your newfound parenting skills!

THE SCREEN SCENE

The work hasn't started but it's vital to know how to stop and take a break. Press **START/PAUSE** to stop the game clock and access the contents in your rucksack. Here you can switch tools and sort through your inventory.

SORTING OUT INVENTORY

You carry tools and produce other essential items from your rucksack. Luckily for you it has the carrying capacity of a hay truck. Press the **Control Stick** to highlight contents in your rucksack or tap the **L** or **R** Buttons to scroll through the entire fourteen pages of gear. There's enough room for over 350 unique items!

TIP

Don't waste the day sitting around digging through your inventory! Press the **X** Button to select your quick access inventory and then tap the **Control Stick** to whirl between items in your food, tools and other farm item categories!
